

Bendiciones

VARIETY: *Tempranillo 100 %.*

SOILS: *The Bendiciones area is located on a granitic entisol of alluvial origin that has given rise to a sandy limestone soil, of medium depth in which a clay beta can be seen in its “C” horizon.*

These soil characteristics together with its location at 890 meters above sea level and the arid meso-Mediterranean climate typical of the D.O. Ribera del Duero, confer a unique “terroir” characteristic, which is expressed in the wine in the form of perfumed notes of white flowers and cosmetic nuances of cinnamon and clove.

VINEYARDS: *made from 100 % old vines of the Tinto Fino variety, planted in the Blessings area.*

ELABORATION: *aged in French and American oak barrels for a minimum of 36 months and matured in the bottle from the date of bottling.*

TASTING NOTES: *it is very fleshy and the expressiveness of its terroir provides very round tannins that enhance its feminine, subtle and fatty character. This wine is only made in excellent vintages, coming from the entire production of the Las Bendiciones plot, in the town of Boada de Duero.*
